CAREER SUMMARY

After completing the course at FPT Software Academy, I thoroughly enjoyed the learning experience and working environment provided by the organization. I am eagerly looking forward to the opportunity of working with FPT Software as a Software Development Intern, where I can further develop my knowledge and skillset in the field of programming. Thank you for considering this application. I look forward to working with the company.

PROFESSIONAL PROJECTS

Interview Management

FPT Software Academy

11.2023

Interview Management system is a system that helps manage the recruitment process of businesses and candidates. The system is used by those participating in recruitment interviews as well as managing job postings, searching for suitable candidates for business positions. The system helps interview participants easily track their schedules and interview schedules. Offers can be managed after the candidate has passed the interview.

Achievements:

- CRUD User, Candidate, Job, Interview Schedule, Offer
- Search by information
- Authorize users for different functions
- Import Job from Excel, Export Interview Schedule, Offer to Excel
- Lead team to get success
